

STEPS TO PROTECT YOURSELF FROM FRAUD

Learn the Red Flags

Familiarize yourself with common scam tactics and warning signs. Knowledge is your best defense!

Secure Your Information

Use strong passwords, enable two-factor authentication, and regularly check your financial statements for suspicious activity.

Share the Knowledge

Talk to friends and family about the importance of fraud awareness. The more people who know what to look out for, the safer we all are.

Report Suspicious Activity

If you encounter a scam or fraudulent activity, report it to the relevant authorities. Your actions could help prevent others from falling victim.
